Can I get a copy of my credit report online?

Probably, but we don't recommend it. There are many security issues regarding the Internet.

Most online services, Qspace, ConsumerInfo, etc. ask that you give up all your rights under the FCRA. These agencies actually place HARD inquiries on your credit file that can lower your point scores.

Anyone who wants to order their credit report may do so by calling 877-322-8228.
